ALDER WOOD

Alder Wood Sheets
20 sheet pack

WUS 083 – 102mm x 305mm x 2mm
WTH 024 – 102mm x 610mm x 3mm
WTH 025 – 102mm x 305mm x 6mm

LaserUniversity™ SETTING CALCULATOR APP

Download the Laser Settings App for Apple or Android devices. Get settings for your laser system for dozens of materials along with handy tips on laser processing. The Laser Settings App is easy to use with the user first selecting the brand of the laser system. All major brands of laser systems are listed including glass tube systems. Next, select the rated power of your laser system and then the substrate to be processed.

Instantly the results are displayed for power, speed and resolution along with an informative tip. Working with a wide variety of materials just became easier! The Settings Calculator App also includes valuable links to videos and how-to instructions that are helpful to beginner through intermediate laser users.

LASER TECH TIP® – LASER WOOD LAMINATES

Walnut, Maple, Cherry, Birch, Bamboo, and Cedar wood sheets are ready for laser or routing to create dynamic looking signage.

- Rich looking real wood is laminated to a top quality fiberboard core making them easy to fabricate with a laser or routing system.
- Deep clear finish is applied to both sides of the 305mm x 610mm sheet. Available in 3mm thicknesses
- Wood Laminates cut and engrave with professional results and are an ideal substrate for a wide variety of displays & signage applications.
- Formaldehyde free.

HARDWOOD COLLECTION DETAILS

The Hardwood Collection is constructed of five single-ply, high quality hardwood layers (or veneers) that are laminated together with their wood grains stacked at right angles to each other for added strength, stiffness and dimensional stability.

This collection of Oak, Maple, Walnut and Cherry laminates is laserable on both sides and available in 3mm and 6mm thicknesses in stock sheet sizes of 305mm x 610mm and 457mm x 610mm. These hardwoods are not sealed or lacquered, allowing users to stain the material to achieve the desired finish.

The Hardwood Collection meets a wide variety of application needs, from architectural, craft and artistry projects to awards and recognition pieces, custom gifts and promotional products. Create an endless array of stunning hardwood products, including business cards, coasters, picture frames, catalog covers, wedding invitations, ornaments and more.
